#### ABOUT

I'm a data-driven front end developer who loves building user-centered applications powered by clean, test-driven code. I'm looking for a great team to learn from, laugh with and contribute to.

#### PROJECTS

**HAUGHT CODEWORKS:** Ruby, Middleman, HAML, JavaScript, SASS, MailChimp

<https://www.haughtcodeworks.com>

I contribute to the Haught Codeworks site including building a new contact form, eBook landing page/sign up and monthly custom-designed newsletters.

**COLORADO GOVERNOR TRACKER:** JavaScript, React, Redux, Node, Express/Knex, Jest

<https://github.com/mariastlouis/coloradogovtracker> || <https://govtrackerco.herokuapp.com/>

This full-stack application cleans data and creates an API out of campaign finance information to explore trends in contributions for the 2018 Colorado governor's race. Turing school classmates and teachers voted this as one of the top apps at the school's demo night.

**ACCOUNTABLE COLORADO:** JavaScript, React, Redux, Fetch, SASS, Jest

<https://github.com/mariastlouis/Accountable>

A React application that lets Colorado residents search and research their state lawmakers and learn about bills progressing through the state legislature in real time. This app won third place in Turing school's demo competition.

#### EXPERIENCE

**APPRENTICE DEVELOPER:** Haught Codeworks

2018

Apprentice developer at an all-remote software development consultancy that specializes in prototyping and project rescues. I have contributed to multiple stacks including Rails/Vue and Phoenix/Ember as well as working to build out the company's marketing site.

**METRO EDITOR, DIGITAL:** The Colorado Springs Gazette

2016-2017

- Led a team of 20 reporters to produce digital content, breaking news and daily stories.
- Thrived in a fast-paced, competitive, analytics-focused atmosphere.

**DATABASE EDITOR/WEB DEVELOPER:** The Colorado Springs Gazette

2009-2016

- Team lead and web developer for data-focused investigative stories.
- Focused on obtaining and visualizing data including data-driven maps, searchable databases and interactive charts.

#### EDUCATION

**FRONT END ENGINEERING CERTIFICATE:** Turing School of Software and Design

2017-2018

A 1500-hour front end engineering program focused on teaching the latest web development languages, libraries and frameworks.

**MASTER'S DEGREE IN WEB DESIGN AND ONLINE COMMUNICATIONS:** University of Florida

2012-2014

A two-year program focused primarily on web design and visual branding. Degree provided a solid foundation in HTML, CSS, responsive design and image creation and editing.

**BACHELOR'S DEGREES IN JOURNALISM AND ENGLISH:** Colorado State University

1998-2003
